For more information on City of Charlottetown parks contact the Parks Dept at 629-4024 or 368-1025.

VICTORIA PARK FOREST RESTORATION PROJECT

The Victoria Park Forest Restoration Project began in the spring of 2006. The goals of the project are to improve the health of the woodlands, provide better habitat for urban wildlife, help curb the spread of invasive plant species, increase environmental awareness and make the park more beautiful.

For restoration project updates and to find out more about urban wildlife, invasive plant species and Dead Man's Pond, please visit the City of Charlottetown's website:
www.city.charlottetown.pe.ca/residents/parks_conservation.cfm.

CITY TRAILS

Routes for Nature and Health Trial System

A 20-km walking and cycling trail system travels throughout the City and connects various neighborhoods and communities within the City. The Confederation Trail within City limit is part of this trail system network.

A [Routes for Nature and Health Trail Brochure](#) can be pick-up at the Parks and Recreation Office – City Hall – 199 Queen Street.

For more information, please contact the Parks and Recreation Office at 629-4024 or 368-1025.

Confederation Trail

A multi-purpose path, that runs from east to west, from tip to tip of the Island. The trail is part of the cross Canada trail system. Located on an abandoned rail bed, the trail accommodates walking, hiking, cycling, jogging, and wheelchairs on a rolled stonedust surface. An 11-km section of the trail runs through the city core, starting at Grafton Street East.

For more information, please contact Parks and Recreation office at 629-4024, 368-1025 or visit www.gov.pe.ca (Confederation Trail).

Boardwalk

For one of our more scenic trails, the boardwalk takes you along the Charlottetown waterfront overlooking the harbour entrance and the meeting point of the North, West, and Hillsborough Rivers.

The boardwalk in Victoria Park was completed in 1994 and is one of the most successful leisure recreation projects in the City of Charlottetown. The Park boardwalk is part of a larger boardwalk, sidewalk, walking trail system from Confederation Landing Park to the Victoria Park lighthouse. Much of the boardwalk hugs the waterfront. This walking trail is open year round for thousands of Charlottetown residents and visitors. The boardwalk is lighted to allow people to enjoy evening walks. This is part of the Routes for Nature and Health Trail System.

There are sites of historic and cultural significance to be seen along the boardwalk including the battery Fort Edward, Celtic Monument and Beaconsfield Historic House. The historic battery, Fort Edward, includes the cannons and powder house. The battery was moved to Victoria Park in 1805. The Celtic Monument is dedicated to the Irish descendents from the 32 counties in Ireland who settled in Prince

Edward Island in the 19th Century. Beaconsfield Historic House is an enduring symbol of Victorian elegance.

Boardwalk Users

The use of the boardwalk is for the use of residents and visitors alike. Please assist us in carrying out the following rules:

Please No Bike Riding
Please No Rollerblading
Please Clean Up After Your Pets

If you have any concerns regarding boardwalk safety issues, please do not hesitate to contact the Parks and Recreation Department.

For more information, please contact the Parks and Recreation office at 629-4024 or 368-1025.

FLORAL WALKWAY

Local residents have been working closely with the Charlottetown Parks and Recreation Department in developing and maintaining a Floral Walkway at the Beach Grove Routes for Nature and Health (just off Maypoint Road).

Individuals wishing to contribute to this project are welcome to plant perennials and wildflowers. Participants are encouraged to plant items from their own gardens at this site to complement the existing plants and to be actively involved in the caring of your donated plants when walking, running or wheeling in the area. All city residents are invited to come out and get involved in the continuation of this project.

For more information please contact 629-4024.
